Old Masters Comes to Kensington

Kensington Art Supply is now carrying the incomparable Old Masters products for oil painters known for their versatility and quality.

Light in colour and texture, Flemish Maroger enables artists to create thick, brilliant strokes and subtle, transparent glazes for paintings with unparalleled depth.

Italian wax medium can be used on its own or with Flemish Maroger. With the addition of the wax medium, paints have a thicker consistency and dry more quickly. When added to light pigments, the paints have more body and a richer consistency.

Adding mastic resin to turpentine as a final varnish to oil paintings dates back hundreds of years. Mastic, a strong binding resin, is the base of Old Masters Mastic Varnish. One to three coats will protect your masterpiece for many years.

Tips

When you're finished painting, wipe any excess paint from the inside of the paint tube cap and try this:

Twist the cap back and forth 8 - 10 times to clear the threads.

No more teeth gouges or plier marks on your paint lids!

GOLDEN ARTIST COLORS®

Mix More Media!

Golden Breaks New Ground

With the addition of five new products from Golden®, Digital Mixed Media artists no longer have to work within the confines of commercially prepared substrates to create their artwork.

Now artists will be able to turn just about any relatively flat surface into a printable surface, achieving clear, crisp images on acrylic skins, metal foils, specialty papers and more.

The five new products that, along with existing products, work together as a system include Digital Ground White (Matte), Digital Ground Clear (Gloss), Digital Ground Clear for Non-Porous Surfaces, Gel Topcoat w/UVLS (Gloss), and Gel Topcoat w/UVLS (Semi-Gloss).

These new products may be just what you need to spark your creativity or indulge yourself by trying something new.
